Abuja, Nigeria

PROFESSIONAL SUMMARY

I am a software engineer focused on front end development, automation, and network systems. I build scalable web applications, solve complex technical problems, and improve system performance through automation. I work well with technical teams, manage projects effectively, and stay committed to continuous learning. My work emphasizes responsive design, SEO, and accessibility. I write JavaScript and Python comfortably, and I have a solid understanding of data structures and databases.

SKILLS

Technical Skills:

- Languages & Frontend: HTML5, CSS3, JavaScript, Python
- Frameworks & Libraries: React.js, Next.js, Tailwind CSS, Bootstrap, Figma
- Tools: Version Control (Git & GitHub), API integration, Webflow

Soft Skills:

- Problem-Solving
- Time Management
- Communication
- Attention to Detail

PROFESSIONAL EXPERIENCE

Software Engineer

Huawei Technologies, Lagos, Nigeria, Mar 2025 - Dec 2025

- Developed and maintained TQL and JavaScript automation scripts to reduce manual work and improve internal efficiency.
- Identified and resolved workflow issues, improving system stability and creating smoother tenant interactions.
- Worked closely with cross functional teams to integrate automation into technical planning, which contributed to a 70% increase in tenant service efficiency.
- Collaborated with teams to refine automation strategies and improve overall application performance.

Frontend Engineer

TechCrush, Remote, Sep 2024 - Jan 2025

- Wrote clean, efficient HTML and CSS3 code that met established standards and reduced rework during deployment.
- Tested features thoroughly before release, which helped prevent production issues.
- Worked closely with developers and QA to identify and resolve bugs, improving application stability and overall performance.

- I used Git to manage the codebase, supported smooth collaboration, and contributed to agile code reviews that strengthened software quality and consistency.

IT Support Engineer

Gregory University, Abia, Nigeria, Nov 2021 - Apr 2022

- Kept systems running smoothly by updating software and hardware, ensuring new tools worked without disruptions and minimizing downtime for the team.
- Diagnosed and resolved hardware issues, keeping computers fully functional and maintaining a reliable environment for development work.
- Consistently maintained computer systems, improving performance and extending equipment lifespan, which helped the technical team work more efficiently.
- Installed, maintained, and repaired hardware and software, ensuring the team always had stable, working tools.

IT Support Engineer

FF Computers, Abia, Nigeria, Apr 2018 - Jun 2018

- Installed and tested motherboards, processors, and graphics cards on desktops and laptops, ensuring staff had reliable, high performing systems for daily work.
- Explained technical issues in clear, simple terms to non-technical colleagues, which improved communication and reduced delays caused by misunderstandings.
- Monitored systems in real time and resolved errors quickly, minimizing downtime and keeping teams productive.
- Led a small team of new interns, guiding troubleshooting efforts, coordinating daily tasks, and ensuring issues were resolved on time to support smooth operations.

EDUCATION & CERTIFICATIONS

- Bachelor of Engineering, Computer Engineering - Abia State University
- Full Stack Programmig - Simvo Africa
- Frontend Web Development - ALX Africa
- Professional Foundation - ALX Africa
- Certificate of Membership - The Nigerian Society of Engineers
- Occupational Safety and Health Supervisor - OSHAssociation UK- Nigeria
- HSE Competence Development Training (Level 2) - Institute of Safety Professionals of Nigeria (ISPON)
